

## Hydrant & Water Main Flushing

The Water Utility crew will be flushing hydrants and water mains from **7:30 a.m. - 3:00 p.m.** the week of **Monday, June 12th to Friday, June 16th.**

This process stirs up sediment in the mains. During that time, using water in your home will draw this sediment into your lateral and then into your home's plumbing system. Check your water softener to make sure it does not recharge during this time.

**You should delay using water for approximately 1/2 hour only when you notice the crew working in your area.**

Customers may experience very low pressure or notice some temporary air in the lines when turning on a faucet after the crew has completed flushing in your area. **Call 715-687-4118 if you have any questions.**
