Village Board.     /    /
5. Date of installation, size of lamp/bulb & type                          /    /

### Guidelines for Street Light Installation

One light at each intersection.

One light at the end of a cul-de-sac.

One light mid-block on blocks 500' or longer.

One light every 400' on streets with no intersecting streets.

### Note

Street light shines over the heaviest driven street.

In new subdivisions, street lights are in by the time the streets are opened.

Street lights are to light streets not private parking lots or yards.

All street light request forms submitted will be reviewed using the above guidelines. This does not guarantee approval of your request.
